

# Checklist

High-speed Internet is for more than just entertainment, and those without sufficient access are at a significant disadvantage. Ensuring that everyone has access to high-speed Internet is a technical, logistical, and economic challenge. That's why it's important now to take a moment to review your progress by carefully going through the checklist below:

- Taken the digital divide readiness assessment?
- Used the digital divide calculator?
- Downloaded the digital divide funding sheet?
- Applied for funding?
- Found a reliable tech partner?
- Determined which solution would be best for your district?
